Email: ssteele@bgcrichmond.org

County Commissioners: Ken Paust, President
Address: 401 East Main Street
City: Richmond, IN
Zip Code: 47374

Plan Summary

Mission Statement: The mission of the Partnership for a Drug Free Wayne County is to promote, support and encourage the prevention, education, treatment and law enforcement of substance abuse and substance abuse related issues including alcohol, tobacco and other drugs.

History: Organized in 1987, the local coordinating council in Wayne County has completed 27 years of service in the prevention, education, treatment, intervention, justice and law enforcement of alcohol, tobacco and other drug issues. In 1995, the LCC received Articles of Incorporation under IC 23-17-1-1 et seq. for "any lawful purpose," but has since gone back under the umbrella of Wayne County Government. The Partnership operates as a community coalition with the membership comprised of any interested citizen willing to serve their community in this area. The membership has evolved over the years to include teachers, school counselors, substance abuse program directors, program counselors, clergy, judges, attorneys, law enforcement, not for profit agencies, senior citizens, government officials, doctors and community members.

The Partnership operates with a Board of Directors and employs a part-time Executive Director. The Wayne County Auditor's office is responsible for the fiscal operations of the Partnership. Upon the recommendation of the funding committee, the Wayne County Commissioners allocate funding on an annual basis and the County Council appropriates the funding. The Auditor's office then distributes checks to awarded agencies. The Partnership on rare occasion has awarded funding mid-year for worthwhile programs, following the same protocol.

The Partnership has been instrumental bringing new initiatives to the Wayne County community. Teen Court was started as an alternative for juvenile probation officers for non-violent first time offenders. The Court, now discontinued, operated for several years through the Probation Department. Hope House Addiction and Recovery Services is a treatment program housed on the grounds of the Richmond State Hospital serving indigent clients with substance abuse. The Hope House was modeled after "The Healing Place" program in Louisville, Kentucky. These two initiatives were brought to Wayne County through our Comprehensive Plan.

In 2005 the Partnership served as the lead agency for a Drug Free Communities Grant administered by DOJ. Collaboration of several agencies and school districts worked together to receive this funding. Although we were not funded in subsequent years, it did set our coalition in the direction of bringing additional resources for our partners and community. In 2007 we applied for and were awarded a Strategic Prevention Framework State Incentive Grant. This grant allowed us to hire 2 new full-time staff to lead this initiative and has brought many new community members into the efforts of the Partnership. This grant expired in 2011. Additionally, our Partnership applied for and was awarded a Safe and Drug Free Schools Grant- Governor's Portion. With these dollars we were able to bring the evidence-based program "Guiding Good Choices" to Wayne County.

In 2007 the Partnership began a series of educational opportunities we named “Lunch and Learn.” At the Lunch and Learns we have covered the areas of abuse, addiction, treatment and law enforcement. The L and L’s have been well attended and have exceeded the expectations of the Partnership.

Summary of the Comprehensive Community Plan: The Partnership for a Drug Free Wayne County works each year to accomplish its mission statement through our members and the organizations they represent, the grantees and funded programs, as well as a diverse group of citizens and programs designed to address Alcohol, Tobacco and Other Drug (ATOD) issues. Our membership has provided a stable foundation for 27 years in the ATOD arena.

Our members represent Education, Law Enforcement, Judiciary, Treatment, Civic organizations, Business, Government, Prevention, Faith Based Intervention, and Medicine. We continue to work towards consistent representation of Youth involvement in our local coordinating council.

For many years now, our plans have been written with a strong emphasis on identified risk and protective factors for Wayne County. We are utilizing the Risk Factor / Protective Factors Approach to Positive Youth Development, a research based strategy approved by the Council for Substance Abuse Prevention (CSAP). Risk and Protective factor-focused prevention is based on a simple premise: To prevent a problem from happening, we need to identify the factors that increase the risk of that problem developing and then find ways to reduce the risk. At the same time, we must identify those factors that buffer individuals from the risk factors present in their environments and then find ways to increase the protection. Risk factors and protective factors exist in our community, family, school and peer/individual.

Several drug and alcohol concerns persist for Wayne County. Lifetime usage of marijuana is notably above the state average for 7th-9th grades as reported on the Indiana Prevention Resource Center survey, 2011. This is also the case for alcohol for 8th-10th graders. This being the case we need to continue focusing on prevention/education initiatives in the schools and youth organizations. A collaborative effort has taken hold in Wayne County to implement "A Comprehensive Prevention Approach" as defined by the Development Research Programs, Inc. in Seattle Washington. According to this model, "the foundation of an effective prevention program is a comprehensive, community-wide approach that addresses risk factors by enhancing protective factors based on established and field-tested research." As defined by this approach, Wayne County has worked to implement strategies identified throughout the plan.

Treatment/Intervention options in Wayne County continue to be a priority, both for adolescents as well as adults. Collaboration between agencies is paramount when the need exists to offer treatment options to the homeless, the indigent, and to every other socio-economic group represented. Individuals who do not have healthcare cannot afford for-profit treatment centers. Wayne County has programs designed for these individuals. Providing financial support to these agencies is a priority for our community.

Our law enforcement agencies take extraordinary steps to make our communities a safe place to live, work and raise a family. Participation in the Governor's Council on Impaired and Dangerous Driving enforcement, drug investigations and arrests, and diversion programs, are only a few initiatives that our law enforcement agencies participate in. Additionally, many community outreach opportunities have developed with the Sheriff's Department Safe Driver Program and DARE as well as Richmond Police Department and Sheriff's Department demonstrations with their "drug sniffing dogs."

It is our obligation to work with every strategy in this plan to reduce the issues our citizens face with ATOD. This plan is a working document that allows us to distribute funding in a fair and equitable manner that best serves the citizens of Wayne County. For the next 4 years we will address the following problem statements:

1. Adults and youth in Wayne County are using opiates and heroin.
2. Adults in Wayne County are abusing alcohol.
3. Youth in Wayne County are engaging in alcohol use.
4. Adults and youth in Wayne County are using marijuana.

Local data supports the need to address these problems in our community. The following is a history of criminal court filings:

Substance/Charge	2012	2013	2014
Illegal Possession of Alcohol	105	60	251
Operating a Motor Vehicle While Intoxicated	411	508	444
Public Intoxication	223	113	71
Marijuana	79	98	127
Opiates/Heroin	99	135	139

In a survey conducted by the Indiana Prevention Resource Center, 2013, the following table represents responses to questions about **Lifetime** Use of Alcohol, Tobacco and Other Drugs by junior high and high school youth in Wayne County:

Lifetime Use

1. 30% of Centerstone clients and 48.7% of Meridian clients seeking treatment for substance abuse reported opioids as the substance of addiction.
2. At the time of the report, information had not been received regarding the number of drug related arrests.
3. 8th -12th graders are at or above the state average for monthly heroin use. 7th and 9th graders are above the state average for monthly prescription drug use.
4. Wayne County Juvenile Probation received 94 referrals for drug/alcohol related offenses.

End of Year 2 Update:

- 1.

- 2.
- 3.
- 4.

Final Update (end of Year 3):

- 1.
- 2.
- 3.
- 4.

C. Goals:

- 1. Decrease the number of heroin/opiate related charges filed in adult court in Wayne County.
- 2. Increase the number of adults seeking treatment for opiate addiction.
- 3. Decrease the lifetime use as reported on the Alcohol Tobacco and Other Drug Survey.
- 4. Reduce the number of referrals to Wayne County Juvenile Probation

End of Year 1 Annual Benchmarks:

- 1. At the time of the report, information had not been received regarding the number of arrests resulting from drugs.
- 2. It appears that more adults are seeking treatment. We have a more diverse source of data collected to represent Wayne County.
- 3. The 2015 Indiana Youth Survey data showed that lifetime heroin use has decreased from 2013 across all grade levels. Prescription drug abuse has decreased in 8th-12th grades (above in 7th grade by 1.6%).
- 4. Wayne County Juvenile Probation received 94 referrals for drug/alcohol related offenses. This is 20 less than the previous year.

End of Year 2 Annual Benchmarks:

- 1.
- 2.
- 3.

Final Report (end of Year 3):

- 1.
- 2.
- 3.

D. Objectives:

- 1. Increase the awareness of risk of harm due to heroin and opiate abuse.
- 2. Support agencies engaged in the prevention of heroin and opiate use through funding or promotion of evidence-based practices.

- 3. Support agencies engaged in the treatment of heroin and opiate addiction through funding or promotion of evidence-based practices.
- 4. Support law enforcement efforts to reduce access to heroin and opiates.

End of Year 1 Update:

- 1a.** Unchained Praises held 4 drug awareness events in Richmond, serving 230 individuals. These events promoted prevention and treatment options that are available to encourage substance users and their families that they are not alone.
- 1b.** The Boys & Girls Clubs of Wayne County served 195 students in evidence based prevention programs and 28 adults in Guiding Good Choices, both addressing the risk of harm of heroin and opiate abuse.
- 1c.** Heroin is Here (unfunded partner) has conducted several media campaigns and formed to educate individuals and combat heroin use.
- 1d.** There was a Lunch & Learn on intravenous drug use and the dangers surrounding HIV and Hepatitis C.
- 2a.** The Boys & Girls Clubs of Wayne County utilizes All Stars and Positive Action as well as Guiding Good Choices as evidence based curriculum aimed at prevention substance use and abuse.
- 2b.** Girls Inc. trained 34 girls in resistance skills using the Friendly PEERsuasion curriculum.
- 3a.** Hope House provided treatment services to 141 males during 2015 for substance abuse.
- 3b.** Celebrate Recovery served 1,261 individuals through small groups, sponsors, and mentors in a 12 step plan based on Christian faith.
- 3c.** Centerstone (unfunded partner) provided recovery services for 144 individuals through September 2015 for opioids.
- 3d.** Meridian Health (unfunded partner) provided recovery services for 415 individuals for opioid addiction.
- 4a.** Wayne County and Richmond Police Department canines conducted presentations to educate individuals about substance use and were instrumental in felony drug searches of automobiles and buildings.
- 4b.** Wayne County holds two take back days per year (unfunded but promoted through the Partnership) and has a drop box at the Richmond Police Station. The take back days typically collect very high rates. The fall collection had 1199 pounds of pills collected.

End of Year 2 Update:

- 1.
- 2.
- 3.
- 4.

Final Update (end of Year 3):

- 1.
- 2.

- 3.
- 4.

A. Problem Statement #2: Adults in Wayne County are abusing alcohol.

B. Supportive Data:

TOTAL substances treated		1594	

1. At the time of the report, information had not been received regarding the number of arrests resulting from drugs.
2. At the time of the report, information had not been received regarding the number of arrests resulting from drugs.
3. **39% of Centerstone clients and 42.3% of Meridian adults received services for alcohol addiction.**
4. At the time of the report, information had not been received regarding the number of arrests resulting from drugs.

End of Year 2 Update:

- 1.
- 2.
- 3.
- 4.
- 5.

Final Update (end of Year 3):

- 1.
- 2.
- 3.
- 4.
- 5.

C. Goals:

- 1. Reduce the number of alcohol related crashes in Wayne County by 10%.
- 2. Decrease the number of OWI charges filed in Wayne County by 10%.
- 3. Decrease the number of Public Intoxication charges filed in Wayne County by 10%.
- 4. Increase the numbers of individuals entering into treatment for alcohol abuse/addiction.
- 5. Reduce the number of arrests for Illegal Consumption of Alcohol by 10%.

End of Year 1 Annual Benchmarks:

- 1. At the time of the report, information had not been received regarding the number of arrests resulting from drugs.
- 2. At the time of the report, information had not been received regarding the number of arrests resulting from drugs.
- 3. At the time of the report, information had not been received regarding the number of arrests resulting from drugs.
- 4. The percentage of referrals through September 2015 increased. We also received new data from Meridian regarding their clients served.

End of Year 2 Annual Benchmarks:

- 1.
- 2.
- 3.

Final Report (end of Year 3):

- 1.
- 2.
- 3.

D. Objectives:

- 1. Support agencies engaged in the evidence based treatment of alcohol abuse.
- 2. Support enforcement activities around Wayne County (overtime for checkpoints and excise police, etc.).
- 3. Support evidence based awareness activities in Wayne County.

4. Provide opportunities for support for those identified as adults (18 and older) that have misused alcohol; i.e.- providing funding, treatment, or other support for individuals and/or families.
5. Support efforts to inform the public of the risks of providing alcohol to minors.

End of Year 1 Update:

- 1a.** Centerstone (non-funded partner) provided services to 188 clients for alcohol abuse.
- 1b.** Meridian (non-funded partner) provided services to 360 clients for alcohol abuse.
- 1 c.** Hope House provided treatment services through the therapeutic community model to 141 men.
- 1d.** Celebrate Recovery provided services to 1,261 individuals for recovery.
- 2.** No agency requested funding for increased enforcement activities.
- 3.** Unchained Praises held 4 drug awareness events in Richmond, serving 230 individuals. These events promoted prevention and treatment options that are available to encourage substance users and their families that they are not alone.
- 4.** Centerstone (through Horizon House) has a drop in center for individuals in recovery.
- 5.** No agency requested funding to inform the public about the risks of providing alcohol to minors.

End of Year 2 Update:

- 1.
- 2.
- 3.
- 4.

Final Update (end of Year 3):

- 1.
- 2.
- 3.
- 4.

A. Problem Statement #3: Youth in Wayne County are engaging in alcohol use.

TOTAL substances treated		54	

1. Lifetime and monthly usage of alcohol levels fluctuate by grade level but remain near or above the state average.
2. 15 of the 54 youth who received Meridian services for drug addiction were based on alcohol referrals.
3. Wayne County Probation received 94 juvenile referrals for drug and alcohol related offenses in 2015.
4. At the time of the report, information had not been received regarding the number of arrests resulting from drugs.

End of Year 2 Update:

- 1.
- 2.
- 3.
- 4.

Final Update (end of Year 3):

- 1.
- 2.
- 3.
- 4.

C. Goals:

1. Decrease the number of referrals to Juvenile Probation for drugs and alcohol.
2. Decrease the number of Minor Consuming (18-20 year olds) charges filed in adult court.
3. Increase the numbers of individuals entering into treatment for alcohol use/abuse and addiction.
4. Decrease the lifetime and monthly use of alcohol as reported to the IPRC.

End of Year 1 Annual Benchmarks:

- 1. There were 20 fewer referrals to Juvenile Probation for drugs and alcohol.
- 2. At the time of the report, information had not been received regarding the number of arrests resulting from drugs.
- 3. The Partnership is receiving additional data to have a more comprehensive picture of who is receiving treatment services. It appears that more youth are receiving treatment.
- 4. Lifetime and monthly usage still fluctuates but some grade levels have decreased usage.

End of Year 2 Annual Benchmarks:

- 1.
- 2.
- 3.

Final Report (end of Year 3):

- 1.
- 2.
- 3.

D. Objectives:

- 1. Increase evidence based educational opportunities regarding alcohol use.
- 2. Support agencies engaged in evidence based prevention of alcohol use by youth.
- 3. Support agencies engaged in evidence based treatment of alcohol use/addiction by youth.
- 4. Increase the awareness of the risk of harm due to underage alcohol use.
- 5. Promote "Guiding Good Choices."

End of Year 1 Update:

- 1a.** The Boys & Girls Clubs of Wayne County offered evidenced based programs to 195 youth. This number has increased from previous years (less than 100). The program is also offered at Northeastern Elementary in addition to the 4 Clubs.
- 1b.** Girls Inc. trained 34 girls in resistance skills using the Friendly PEERsuasion curriculum.
- 2.** The Boys & Girls Club and Girls Inc. offered evidenced based programs as funded partners.
- 3a.** Utilized Centerstone and Meridian (unfunded partners) to refer individuals for treatment.
- 3b.** Supported Celebrate Recovery who, in addition to the recovery program, offered babysitting services to reduce the barriers individuals have in achieving recovery.
- 4a.** Northeastern Peer Helpers assisted with transitioning students.
- 4b.** Centerville Peer Helpers were trained to and assisted with speaking with their peers about substance abuse.
- 5.** Guiding Good Choices was offered to 23 individuals, and supported by the Partnership not only through funds but promoting the program.

End of Year 2 Update:

- 1.
- 2.

- 3.
- 4.
- 5.

Final Update (end of Year 3):

- 1.
- 2.
- 3.
- 4.
- 5.

1. Wayne County youth are above the state lifetime and monthly averages for marijuana use in 9th-12th grades.
2. 48% of youth and 45.5% of total clients receiving treatment from Meridian were there for marijuana use.
3. 20% of Centerstone clients receiving treatment were there for marijuana use.

End of Year 2 Update:

- 1.
- 2.
- 3.
- 4.

Final Update (end of Year 3):

- 1.
- 2.
- 3.
- 4.

C. Goals:

1. Reduce the availability of marijuana.
2. Increase the numbers of individuals entering into treatment for marijuana use.
3. Decrease the number of court cases filed related to marijuana by 10%.
4. Decrease the number of Juvenile Probation referrals for drugs and alcohol by 7%.
5. Be below the State average on the ALCOHOL TOBACCO AND OTHER DRUG SURVEY for marijuana.

End of Year 1 Annual Benchmarks:

1. There were no specific marijuana eradication efforts in 2015.
2. With more data represented, it does appear more individuals are receiving treatment. Centerstone (for 2014 comparison) numbers of clients seeking treatment for marijuana have increased.

- 3. At the time of the report, information had not been received regarding the number of arrests resulting from drugs.
- 4. The number of juveniles referred to probation for drug and alcohol cases has decreased by 17.5%.
- 5. While Wayne County youth are not below the state averages, the overall averages have decreased.

End of Year 2 Annual Benchmarks:

- 1.
- 2.
- 3.

Final Report (end of Year 3):

- 1.
- 2.
- 3.

D. Objectives:

- 1. Support efforts to limit the availability of marijuana.
- 2. Support agencies engaged in the treatment of addiction to marijuana.
- 3. Support efforts that increase awareness of the dangers of using marijuana.
- 4. Support agencies engaged in the prevention of marijuana use.
- 5. Promote/support local alternative activities for youth.

End of Year 1 Update:

- 1. Wayne County and RPD canines conducted drug searches in cars and businesses.
- 2a. Centerstone provided services to over 95 individuals for marijuana treatment. Meridian provided services to 388 individuals for marijuana treatment.
